

# ACT 46 SURVEY

Act 46 of 2015 creates a multi-year process that provides three phases of incentives for communities that voluntarily merge into the most common governance models. There are three incentivized phases of Voluntary Mergers: Accelerated Mergers (Phase 1); REDs or RED variations, which are potential Alternative Structures (Phase 2); and Conventional Mergers (Phase 3).

Districts that do not pursue or achieve a voluntary merger must evaluate their ability to meet or exceed State goals and make proposals to the State Board. In 2018 the Secretary will develop a proposal and the State Board will issue a final statewide design that realigns unmerged districts into more sustainable models of governance that meet State goals - to the extent *realignment is necessary, possible, and practicable* for the region.
